Tutorial to connect to Sharepoint 2013 - to the attention of people external to Elia

1. You will receive, in your inbox, an invitation to join the <Site Name>, by Microsoft

2. If you click on the link (in this case 'ESN Project'), you will be directed to the following screen:

Welcome to SharePoint Online

To accept your installors sign in with a Microsoft account or an account assigned to you by your organization

	Microsof Laccount Sign in with the scoount you use for DigDrive, Xbox LVL; Curlock.com, or other Microsoft solvers				
	Organizational account Sign in with the account provided by your work or school to use with Office 365 or other Microsoft services.				
Don't hev	e either account Create a Microsoft account, util quick and easy:				

As external, you will need to either:

- If you have an account with a Microsoft service (e.g. email on hotmail, msn, outlook.com, etc...), click on 'Microsoft account' and as such connect with your Microsoft or connect your existing email to Microsoft.
- If you have an email which has been tied in the past to a Microsoft account (e.g., another external Sharepoint), you can click on 'Organizational account' (unlikely option)
- 3. If neither of the cases apply, you should click on 'Create a Microsoft account'

Details on those cases

2.1 and 2.2 -> You should sign in using your Microsoft credentials (there are no credentials provided with the access given by the key users, it is the case in which you have Microsoft account or tied your professional email to a Microsoft account):

	Siegen in
A and a second s	somester"+ simple.com
And a	Texeptor

As far as Elia is concerned, First & Last Name is important, as well as phone number or security question – you don't need to fill in accurate information on the other fields (birth date, location, gender, etc...), even though most of the fields are mandatory.

To note, in the 'Microsoft account name' field (highlighted in red), you should type in your existing email address (ideally professional). With the password, those will serve you to access the service. Do not forget to unsubscribe to the offers of Microsoft before creating the account.

Once you accepted, your account will be created & you will be redirected to the site, or prompted to login then redirected. You can later click again on the invitation link, which will direct you to the site or login screen.

3 Start exploring & collaborating ! (As a note, you may not enjoy the same rights as internal Elia users)
