# Flow based & impact on website publications

Flow-based Market coupling go live on May 21

- Common (CWE) calculation of 'net-position' per market/country
- ATC MC contained a notion of NTC 'per border'
- NTC reference and framework not applicable anymore since flow based

Impact on website

- Notion of Day-ahead NTC's has disappeared
- Introduction of 'net position' (import/export)
- Gradual update of webpages foreseen in the coming months
- Phase toward FTR's
- Principles
  - 1 single source → link thru to 'master data' i.e. CASC, JAO, EMFIP
  - Avoids duplication

Timing

Fall 2015, followed by FTR
