

Status NWE Day-Ahead

European Market Design Working Group
June 19th 2014

Go-Live MRC

- NWE went successfully live on February 4, 2014.
SWE also started in common synchronized mode, using PCR.
- On May 13, 2014 SWE full coupling started.
- NWE-SWE now called **MRC = Multi – Regional Coupling**
- NWE and SWE jointly developed a common Operational Agreement.
- MRC has proven to be operationally robust

Extensions

EXPANSION OF MRC		
	NWE, Baltic	Feb 2014
	Austria, Poland	Partial solution, Feb 2014
	SWE	May 2014 Full Coupling
	Italian Borders	End 2014
	4M	Separate PCR solution, Q4 2014

NWE

**Number of price areas
(118 days before vs 118 days after NWE go-live)**

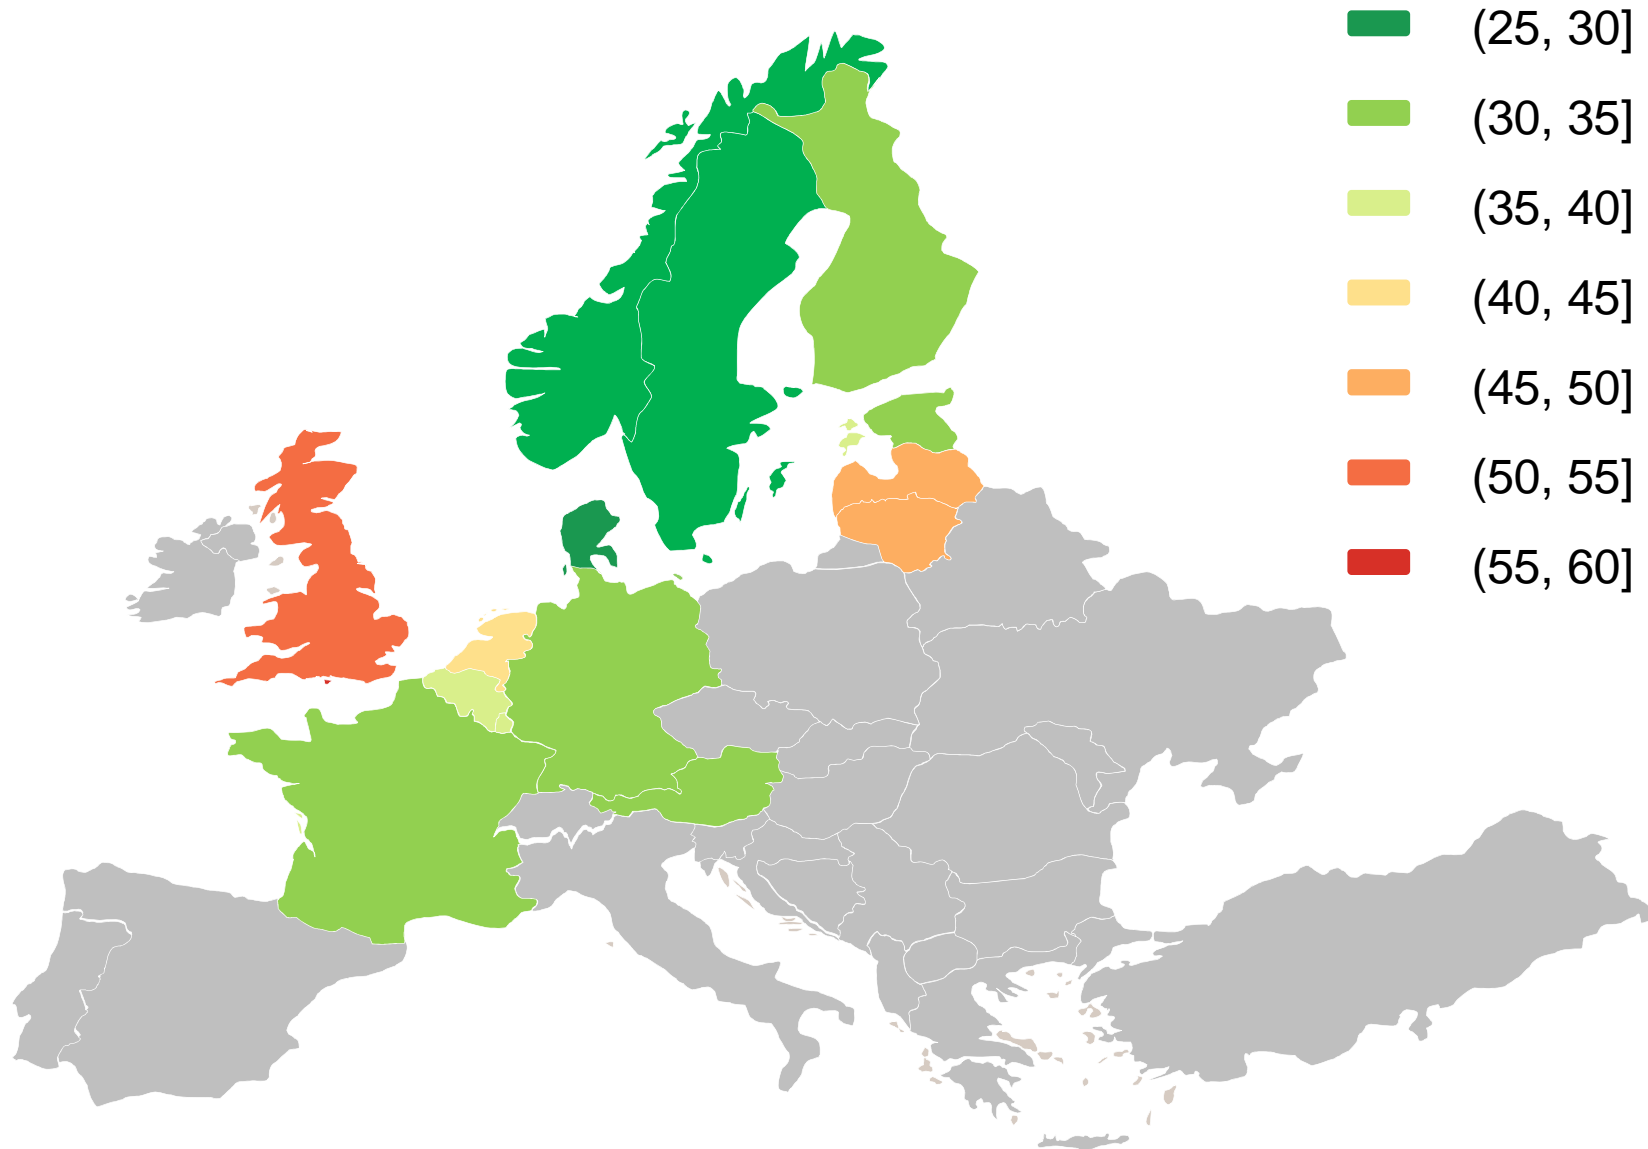

NWE

Overall price spread (118 days before vs 118 days after NWE go-live)

Average NWE MCP levels per area since start

NWE Average MCP 04 February – 02 June

Area	Average MCP
Norway*	€ 26.49
Denmark*	€ 29.67
Sweden*	€ 29.84
Germany	€ 31.43
Finland	€ 33.33
Estonia	€ 33.68
France	€ 34.05
Belgium	€ 39.08
Netherlands	€ 40.47
Latvia	€ 45.23
Lithuania	€ 45.23
Great Britain	€ 51.15

* Average of the respective area prices.

Publication of results

➤ Enduring solution

Entso-e Transparency platform, available early 2015

➤ Current situation

- Nordic and Baltic prices, internal flows and ATCs are published on NPS web site <http://www.nordpoolspot.com/>. This is also the case for UK prices, capacities and flow for IFA and intra GB.
- CWE prices, internal flows and ATCs are published on <https://www.europeanpricecoupling.eu/> on a daily basis, as well as locally on the TSO and individual PX websites. The website is currently managed by the CWE PXs (APX, EPEX) on behalf of the CWE TSOs and PXs.
- The data of the other borders are published on respective PXs and TSOs websites
- For SWE borders : <http://www.iesoe.eu/iesoe/>

➤ Interim solution

- is currently being discussed within the project
- The short time to market for the ENTSO-e platform does not justify investments for a new platform,
- PXs and TSOs to cooperate in order to implement, at low cost and minimal resource, a structure covering the few months left until Entso-e platform is up and running.
